

Dear Parents/Guardians,
The Management and Staff are endeavouring to keep the preschool a peanut product free environment. This is for the safety and the health of our precious children.

How can you help?

1. No peanut food or food products to be included in any of the children's daily provisions
2. When a peanut product is had for breakfast leave getting washed and dressed for pre-school until after the food is finished (in most cases the food is dangerous to these children through the touch of skin/clothes)
3. On arrival to the preschool help your child to wash their hands before play inside or out.

We are not food police, we are meeting our legal requirements and ensuring the health and safety of everyone.

When any children have health concerns the preschool staff will do everything within their power to protect each and everyone.

Thank you for your support and diligence in this matter

The Preschool Team
